

## Canon CR-25, CR-55 and CR-180 Check Transport Cleaning Card with Waffletechnology

This product is designed specifically to maintain the Canon CR-25, CR-55 and CR-180 Check Transports through a joint development effort. Once inserted they will:

- Clean the optical scanner lenses
- Clean check pathways
- Clean check transport belts and rollers

Use as:

- A scheduled maintenance product to prevent poor check scans
- An emergency maintenance product after poor check scans

### How Waffletechnology Works

The Cleaning Waffles are flexible raised platforms that allow the card to clean previously unreachable areas within the equipment.
